

Academic Curriculum

Curriculum

New Rainbow Public school ensures to impart excellent education that gives our pupils the ability to be competitive and victorious in the vast world. The Curriculum is based on CBSE directives and NCERT course. All aspects of academics are taken care of with due emphasis on interactive learning. Theory and Practical are given due importance. We have included all the traditional subjects along with a whole lot of challenging new subjects. The difference at NRPS is that academic environment comes wrapped in rich layers of experiential, environmental, entrepreneurial learning and creative arts. In the process we create more authentic motivations for learning, and at the same time expand our pupils' horizon of global citizenship and environmental responsibility while exposing them to different possibilities for how we live and grow on the planet earth. In order to attain this, we have made a paradigm shift from traditional ways of curriculum transaction in classroom to more evolved and contemporary techniques. The children are encouraged to get involved in the exciting adventure of learning experience through discussion, enquiry and experimentation.

The subjects taught at various school levels are as follows-

For Class I-V as per the CBSE Guidelines

For Class VI to VIII (Prescribed by the Directorate of Education)
